
DC Student Assignment and School Boundary Review Process

BREAK OUT GROUP Cardozo Feeder Pathway

June 2014

Agenda

- Summary of how key recommendations impact your community
 - Geographic boundaries and feeders, including openings/closing and transportation issues
 - Phasing in
 - Expansion of early childhood rights, at risk preference, OOB set asides
 - Better planning within and across sectors
- We need your feedback – discussion and worksheets, survey

What is being proposed to change in the geographic boundaries?

- Cardozo's boundary shifting south and east to coincide with their MS feeders, Columbia Heights EC and New Center City MS
- Proposal to open New Center City MS
- Proposal to feed the elementary schools to the New Center City MS and convert Cardozo EC to a high school, only after New Center City is open
- Many of the impacted families currently have multiple rights, the proposal would reduce rights to one ES, one MS, and one HS per residence
- Elementary school boundaries changed to accommodate school closures, population changes, over-capacity schools and transportation and walkability

WORKSHEET QUESTION

What suggestions do you have for the proposed boundary and feeder pathway revisions in your specific neighborhood and generally?

What particular neighborhoods have transportation challenges due to their geographic isolation or lack of good public transit options?

Phasing In:

How does this impact your family?

- No student will be asked to leave their current in-boundary school if their zone changes
 - Siblings maintain the right to attend the school, as long as they have a sibling currently enrolled
- Students in 3rd – 5th grades (as of SY14-15) can continue on in their existing feeder pattern
- Students in 6th-8th grades (as of SY14-15) can continue on in their existing feeder pattern
- Students zoned to a new middle school can maintain their current rights to middle school based on their home address until the new school is open

WORKSHEET QUESTION

What suggestions do you have for the proposed phase-in policies?

Implication of Key Policy

Recommendations: OOB Set-Asides

- Out-of-boundary set-aside minimum for students that do not have feeder rights
 - 10% at elementary schools
 - 10% at 6th grade
 - 10% at 9th grade

WORKSHEET QUESTION

Do you like the proposed policies increasing access for out-of-boundary and at-risk populations? What would you change?

Implication of Key Policy

Recommendations: Better Planning

- Parity in programming across DCPS feeder pathways
- Reduce students switching schools mid year between and within DCPS and public charter schools. Key areas to explore include:
 - Alignment of grade configurations across sectors
 - Alignment of discipline and expulsion policies across sectors
