2. What are the most important educational services and/or outcomes that the charter operator should provide to students/families in this neighborhood?

3. In addition to education are there any other community needs that a charter applicant should consider addressing at the Keene School? If so, what are those other needs?

4. Are there any community issues or values with which a successful charter operator should align? If so what are they?

5. What other considerations should be taken into account in shaping the RFO to align community interests?
