Rationale for Proposed Boundary Changes: Ketcham has capacity to grow. The attendance zone extends a few blocks south to relieve population pressure on Moten. Ketcham’s low boundary participation rate mitigates concerns about the difference between capacity and the number of age appropriate students in the proposed attendance zone.

Proposed Geographic Destination Feeder Schools (Feeder Pathway): Anyone living in the proposed new boundary for Ketcham ES is zoned for and has a right to attend Kramer MS and Anacostia HS. Any student attending the school out-of-boundary has the right to continue in the feeder pattern to Kramer. Proposed feeder pattern changes were made to better align school building capacity with population and with feeder pattern participation rates and to support racial/ethnic and socio-economic diversity, where possible.

Proposed Programmatic Destination School (Feeder Pathway): No programmatic feeder pattern proposed.
