Rationale for Proposed Boundary Changes: Eaton absorbs a small section in the northeast corner of the Oyster-Adams boundary. The boundary expands some to include some of the former Adams boundary. Oyster-Adams is near capacity, but there are few public school students living in the former Adams boundary.

Proposed Geographic Destination Feeder Schools (Feeder Pathway): Anyone living in the proposed new boundary for Oyster-Adams EC is zoned for and have a right to attend Wilson HS. Any student attending the school out-of-boundary has the right to continue in the feeder pattern to Wilson. Proposed feeder pattern changes were made to better align school building capacity with population and with feeder pattern participation rates and to support racial/ethnic and socio-economic diversity, where possible.

Proposed Programmatic Destination School (Feeder Pathway): Oyster-Adams EC is a dual-language school. Eighth graders at Oyster-Adams EC have the right to attend the dual-language program at Roosevelt HS.
