

Proposed Boundary Changes for Stoddert Elementary School 4001 Calvert St. NW

Stoddert Elementary School is the public school of right for all school-age children living within the attendance zone. Families can also apply to charter schools or out of boundary to DCPS schools through a lottery process.

Target School

Current Boundary

Proposed Attendance Zone

DCPS Elementary or PS-8 Schools

SY 2013-14
Enrollment: 381
In-Boundary: 81%
Bldg Capacity: 320
Bldg Utilization: 119%

# of grade appropriate public school students living within the current boundary (SY13-14)	379
# of grade appropriate public school students living in proposed attendance zone (SY13-14)	349
Boundary participation (% public school students living in boundary and attending) (SY13-14)	79%
Projected 4-10 year old child population change 2014-2020, Neighborhood Cluster 14	135%

Rationale for Proposed Boundary Changes: Hyde-Addison absorbs some of the Stoddert boundary on the south in an effort to relieve pressure at Stoddert which is over capacity and has a high boundary participation rate. Stoddert’s neighborhood cluster is predicted to grow in number of public school students. Changes have little impact on walkability.

Proposed Geographic Destination Feeder Schools (Feeder Pathway): Anyone living in the proposed new boundary for Stoddert ES is zoned for and has a right to attend Hardy MS and Wilson HS. Any student attending the school out-of-boundary has the right to continue in the feeder pattern to Hardy. Proposed feeder pattern changes were made to better align school building capacity with population and with feeder pattern participation rates and to support racial/ethnic and socio-economic diversity, where possible.

Proposed Programmatic Destination School (Feeder Pathway): No programmatic feeder pattern proposed.
